HOW DID THE FUND PERFORM LAST YEAR AND WHAT AFFECTED ITS PERFORMANCE?

For the fiscal year ended May 31, 2026, the Fund generated positive returns with consistent monthly distributions. Option premiums received from option strategies contributed negatively to total return.

WHAT FACTORS INFLUENCED PERFORMANCE

- Performance of the Tesla stock
- Amount of premium received from option strategies

POSITIONING

The Fund maintained long exposure to Tesla stock via synthetic long positions (long call options and short put options both with the same strike) and in-the-money calls. The Fund employed option strategies to receive premiums to generate income while allowing upside price appreciation potential. The remaining cash was invested in U.S. T-Bills to generate additional income.
